## Gaining Levels

- The new hit points are calculated by re-rolling. If the new hit point total is lower or equal to the old hit point total, add one to the old hit point value for the new total. When re-rolling hit points sum these totals:
  - New level die rolls as indicated in the table.
  - Plus species bonus.
  - Plus constitution bonus times the character level.
- The death limit is increased.
- Weapons attack dice are adjusted.
